Ivan Gavrilin, Frontend developer

[Moscow, Russia]

Profile

I work on **React** and pure **JS/TS**, I can make responsive layouts and write tests. I am actively studying and constantly expanding my stack. Having come to the frontend from the field of online commerce, I brought from my previous job people skills and an understanding of the client's view of web design. Fluent in English and German. I live in Moscow, but ready for relocation.

Skills

**React   Redux   Next.JS
JavaScript   TypeScript
HTML   CSS/SCSS   Material UI
RESTful API   GraphQL
Unit Testing   Vitest
Webpack   Vite   Git   GitHub
commerce tools   openCart**

Languages

**English – B2
German – B1
Russian - native**

Experience

Freelance
Frontend developer
01.2023 – present

I have created several projects on React, TS and JS. My portfolio - gavrilin.online. I aim to moving from freelance to working at a company.

fontan-online.ru
Individual entrepreneur
01.2012 — present

I run an online store, which I had created from scratch using Joomla CMS and later rebuilt with openCart CMS. I've been responsible for all aspects of the business: maintaining the site, managing content, order processing, and accounting.

OSKO, Stiebel Eltron, Hydroplastics
Commercial director
1999 — 2012

Sales of fountain and heating equipment of German companies. I worked my way from sales manager to commercial director. I provided consulting to clients, managed the sales department, secured sales planning, and working with key accounts.

Education

THE ROLLING SCOPES SCHOOL
Frontend developer

10.2023 - 01.2024

I finished the **React 2023 Q4** course in 24th place out of 1,080 students. Several projects were completed during the course, including a team project for creating an online GraphQL query editor.

03.2023 - 10.2023

I completed the **JAVASCRIPT/FRONT-END 2023Q1** course in the top 50 out of more than 5 thousand students. A number of projects were completed, including a team project to create an e-commerce application based on the commerce tools service.

Moscow Power Engineering Institute
Master Electrical engineer
1993 - 1999
